Summary

Dynamic Front-End Developer with 2+ years of experience in crafting responsive and user-centric web interfaces using technologies like HTML, CSS, JavaScript, and ReactJS. Led initiatives such as redesigning themes to enhance usability and supported core product rebuilds, contributing to high-performance outcomes. Seeking to leverage strong skills in UX/UI design and collaborative development to drive impactful digital solutions.

Professional Experience

VacationPort (Remote) — *Junior Web Developer*

(July 2024 – Present)

- Built responsive supplier/destination websites (HTML, CSS, JS, Bootstrap).
- Designed modern themes for our CMS, and offered clients custom work improving usability.
- Supporting rebuild of core products in ReactJS; assisted with .NET Core back-end tasks.
- Collaborated with UX/UI and marketing teams to deliver client-focused designs.
- Managed client/internal requests via Salesforce, Jira, and Asana.

Power Express Delivery (Carmel, IN) — *Amazon Delivery Associate*

(December 2023 – July 2024)

- Maintained efficiency and reliability in a fast-paced logistics role.

EZAdsPro (Carmel, IN) — *Senior Graphic Designer*

(December 2017 – March 2023)

- Delivered high-impact digital and print ads under tight deadlines.

- Established new ad design standards, improving workflow consistency.
 - Converted print ads to digital formats, expanding client reach.
 - Partnered across teams to ensure on-time project delivery.
-

Projects

React Shop

- Developed a full-featured React e-commerce demo with component-based architecture, state management using Context and useReducer, and real-time cart updates via session persistence.
- Integrated the FakeStore API for product data, implemented dynamic routing with React Router, and deployed a responsive, production-ready single-page application.

CV / Resume Builder

- Built and deployed a React-based resume builder with modular components, real-time state management, modern tooling, and version control.

Destination & Supplier Sites (*VacationPort*)

- Constructed Destination & Supplier Sites with responsive layouts and optimized content delivery to elevate partner engagement and user retention.

Tough Mudder Redesign

- Transformed the Tough Mudder website by designing and translating Adobe XD wireframes into a responsive digital, home page experience, with the goal to elevate brand engagement and streamline user navigation across devices.

To-Do List App

- Created a to-do list application emphasizing clean back-end architecture, implemented RESTful APIs for robust task management, and incorporated responsive front-end elements to enhance usability.

Portfolio Website

- Developed a dynamic portfolio website utilizing custom React components, interactive animations, adaptive theme toggling, and fully responsive layouts for optimal cross-device presentation.
